**IDENTIFIERS** \*Hawaii

**ABSTRACT**

This report summarizes personal and academic characteristics of the 27,100 students enrolled at Hawaii's seven community colleges in spring 1978. Although the report emphasizes students in credit programs, registration counts of non-credit program students are included. The statistics come from Student Enrollment Reports, personal history forms, and class registrations. Regular students numbered 19,843 during spring 1978 and comprised 73% of total registrations; this figure represents a 5% decrease from fall 1977 and a 4% decrease from spring 1977. A comparison between spring 1978 and spring 1977 shows that in spring 1978 there were substantially fewer males, liberal art majors, and unclassified, full-time, and continuing students. Student characteristics data revealed that: males continued to outnumber females but at a proportionately decreasing ratio; student mean age was lower than in the previous two years; there were substantially fewer students over age 59; and there were significantly more transfer students than in spring 1977. Three tables present data by campus, and the appendix illustrates selected student characteristics data from fall 1975 through spring 1978. (Author/TR)

SELECTED CHARACTERISTICS  
CLASSIFIED AND UNCLASSIFIED (REGULAR) STUDENTS  
COMMUNITY COLLEGES  
SPRING 1978

This report is a brief summary of selected personal and academic characteristics of students enrolled at the seven community colleges in the Spring 1978 semester. The emphasis of this report is on students enrolled as classified or unclassified students in the credit programs. However, a registration count of students enrolled in other programs (primarily non-credit programs) as well as the registration count of students in programs sponsored by the Manpower Training Office and by Hoomana are included.

Sources of Data

Except for Table I, the data cited in this report were extracted from the Student Enrollment Reports (SER) as of March 3, 1978. The basic data were derived from student applications, personal history forms and student class registrations.

Highlights

1. Registrations (Table I): Regular students number 19,843 this spring and comprise 73 percent of the total registrations (27,100) reported in community college programs. Enrollments in "other" programs (such as Kalihi-Palama Education Center, non-credit classes, etc.) and in apprentice/journeymen programs number 4,249 and 1,747, respectively, and constitute the next two largest groups of students served. As in previous semesters, the bulk of the concurrent students are enrolled at Hawaii Community College while the largest number of early admits are at Leeward Community College.
2. Regular Students (Tables II, III, Figure 1): The Spring 1978 enrollment of 19,843 is 930 (5%) fewer than the 20,773 reported for Fall 1977 and 782 (4%) fewer than the 20,625 reported for Spring 1977.
  - a. A comparison between the Spring 1978 and Spring 1977 data shows that this spring there were substantially fewer:
    - (1) males, 10,790 compared to 11,670 (-880)
    - (2) liberal arts majors, 9,086 compared to 9,605 (-519)
    - (3) unclassified students, 1,707 compared to 1,920 (-213)
    - (4) full-time students, 10,772 compared to 11,321 (-549)
    - (5) continuing students, 14,606 compared to 14,998 (-392)

- (6) new students, 2,362 compared to 2,631 (-269)
  - (7) transfer students, 1,583 compared to 1,864 (-281)
  - (8) students with Honolulu local address, 7,479 compared to 7,941 (-462)
- b. A review of the data on student characteristics for this spring reveals the following:
- (1) Sex Distribution: Males, 54%; females, 46%. Males continue to outnumber females but at a proportionately decreasing rate compared to previous semesters.<sup>1</sup>
  - (2) Mean Age: 25.2 years old. This is lower than the previous two spring semesters.
  - (3) Age Distribution: Dominant group, 18-19 year olds (29%) as in previous spring semesters. There were substantially fewer students over age 59, 101 this spring compared to 156 last spring. This probably accounts for the lower mean age cited above.
  - (4) Program Distribution: Vocational education majors, 46%; liberal arts majors, 46%; unclassified students, 9%. (Last spring the distribution was 44%, 47%, and 9% for the respective groups.)
  - (5) Average Semester Hours Taken: Average semester hours taken, 10.5 for the total group. Full-time students carry an average load of 13.9 semester hours; part-time students, 6.4. The data for last spring was about the same.
  - (6) Full-/Part-Time Status: Full-time students, 54%. (Comparable percentages last two spring semesters, 58% and 55%.)
  - (7) Student Status: Continuing, 74%; new, 12%; transfer, 8%. (Similar to last spring.)
  - (8) Transfer Students: Total, 1,583, of whom 957 are transfers from within the University of Hawaii. (Last spring, there were 1,125 transfers from within the University of Hawaii campuses.)

---

<sup>1</sup>Nationally, much attention has been given to the phenomenon of increasing enrollment of women students in the colleges. This past fall semester, 49% of students enrolled in American colleges and universities were women, compared to 40 percent 10 years ago. Among the reasons cited for this increase of women in colleges are: (1) end of the military draft with its deferment for college students; (2) expiration of veterans' education benefits; (3) economic pay-offs for women with education in terms of higher earning power; (4) higher family income; (5) smaller families; (6) a decline in the relative costs of attending college. (The Chronicle of Higher Education, Vol. XV, No. 17, January 9, 1978, page 1.)

Summary

Enrollment declined substantially this spring compared to Fall 1977 and Spring 1977 (5 and 4 percent fewer than those semesters). Further analysis of the enrollment data shows that the decreases were fairly substantial in certain areas: fewer liberal arts majors, unclassified students, males, continuing students, full-time students. Also indicated by the data are that community colleges are attracting more women, more part-time students, more vocational students. (Literature in national publications cite similar changes.)

What do these changes indicate? Should and how may the colleges accommodate these changes?

\*Includes enrollment count only in those programs which started after January, 1978.

#Includes such programs as Kalihi-Palama Education Center, Hawaii State Senior Citizens Center, etc.

##An additional 318 were served in overseas programs.
